## Message From Mrs Marks

It has been a short but busy week at Dogsthorpe Infants. I hope that you all had a great Bank Holiday weekend despite the rainy weather! The wet weather has meant we have had a few indoor lunch and break sessions this week, which is a shame as we are really eager to try out our new multi-gym equipment situated on our school field! Our Year Two children have again done us very proud this week during their 'special work' showing great concentration and resilience.

Fingers crossed for brighter weather next week as we approach the end to another half-term.

## EYFS

We have been learning about 'thought bubbles' and 'speech bubbles' while describing what Baby Bear was thinking and saying after going to the moon. In Maths we have been using our understanding of shapes to create some amazing 3D rockets! We have also been on a technology hunt - finding different technology that we use at school and home and talking about if we all use the same things.

## Year 1

This week has been an action packed week where the children have been developing their geographical skills. We enjoyed using Google Earth to look at the UK and various seaside locations. We have studied a range of aerial photographs of Hunstanton to identify different features. We have also looked at various human and physical features of the seaside not to mention a visit to Old Hunstanton to experience these features first-hand!

## Year 2

We have been considering the features of a recount to plan our own experience of visiting Mounfitchet Castle. We have been ordering photos of their day, thinking about exciting time sequencing words for each event, recording how they felt and most importantly using past tense and first person to write about exactly what we did!

We hope our recounts will help others to know how what a fantastic day we had.
