Nativity Creche Reminder

In order to ensure a quiet atmosphere for our children to perform in we will not allow pre-school children or babies in to the hall. Please make your own childcare arrangements. For parents who are unable to make alternative arrangements there will be limited emergency crèche facilities.

PLACES MUST BE PRE-BOOKED AT THE SCHOOL OFFICE.

Book Buzz Reminder

Donaldson Class 8:50am—9.10 am
Friday 6th December.

Attendance

Our Attendance for this week is an improved 94% .

Classes achieving 95% and getting an attendance star are:-

Nightingale Class	99.33%
Columbus Class	99.13%
Seacole Class	97.33%
Hillary Class	97.00%

Message From Mrs Marks

The sound of Christmas music has been ringing out from the hall as our children have begun learning lots of songs in preparation for our annual Nativity, this is always a wonderful time to work in a school! On Wednesday I was fortunate enough to join some of our children and staff as we attended a sing-along at the Salvation Army Citadel. We had a fabulous time singing along to Christmas themed songs, dancing and using the instruments. A huge THANK YOU to Mrs Gardner, staff and parent helpers who have worked tirelessly to organise and support the Christmas Fayre, we are blessed to have such a dedicated team.

EYFS

This week we came into the classroom to find a big mess! We discovered that a teddy from our classrooms had been taken by Rob the Robber! We created missing posters to put up around the school and looked for clues to help us find it. Rob the Robber sent us letters that we had to read in order to get our teddy back. We then had to decide if Rob the Robber was following the school recipe or whether he should go into 'Fairytale Jail'! I wonder what we decided?

Year 1

We have become Historians this week as we have delved into the past to learn about the famous nurse Edith Cavell. Did you know our hospital in Peterborough is named after her? We are going to use our knowledge to create our own information books about her brave and heroic life. In Maths we have been learning about measuring length using non-standard units. We have compared the length of different objects to see which items were the longest and shortest.

Year 2

This week we have used all the information that we have researched about how our bodies use food to create a healthy packed lunch. We made a shopping list of all the ingredients that we would need to have a balanced diet and explained why we had chosen each item of food. We knew it was important to have carbohydrates so that we have lots of energy to learn and play, protein to help our bodies grow and vitamins in fruit and vegetables to make our bodies glow and to keep healthy. We made the lunch and decided that even healthy food is fun to make and tastes great! We took lots of photos so that we can send them to Mrs Slob!
