Columbus Class	98.21%
Attenborough Class	98.00%
Rosen Class	97.67%
Nightingale Class	97.18%

Well done to Hillary Class who are the Attendance Cup winners

Attenborough Class have achieved 10 stars and earned themselves 'Toast-time'!

Message from Mrs Waters

What an exciting start we've had to 2019! We've flown around the world during our 'Passport around the World Day' and then had great fun with Atomic Tom and Cosmic Chris during our Science week. We are enjoying our trips to the Learning Bus, look at the website to see film clips of Armstrong class meeting polar bears and sharks! Year Two have started their Forest School sessions with Miss Stamper and are developing their den building skills. It's truly amazing how much learning we manage to fit into just one week! I am delighted to share that I have now given out 'Race to Read' prizes to nearly all classes. Please read at home with your child and help their class to win their next prize.

Have a great weekend and keep warm!

EYFS

This week EYFS have been learning about 'The Little Red Hen'. We have been following instructions for making bread and we have enjoyed making our own rolls to take home.

We have also been learning about 3D shapes. It would be great if the children could find 2D and 3D shapes at home and describe them!

Year 1

In Year One we have been developing our Geography skills. We started with a walk around Dogsthorpe to look at different types of houses and we used a map to plot our journey. We have also explored differences between rural and urban areas.

Year 2

Year Two have had a super start to the Spring Term! After our fabulous visit from the Lion Learners last week, we have used what we learnt to identify each of the animal groups and then classify animals by their features. We compared other mammals, birds and even fish to humans and discovered that although we may be different we also have some features that are the same! We even found out that all animals have things in common, like we all need to eat to survive! We are really enjoying looking at all the amazing CLOOS, like the animal habitats, mobiles and fact files that are on display in the Year Two corridor.
